

# We Have Happy Customers!

## Our Profit from Poultry Customer Testimonials.

*"People love the product and ask for it by name before fundraising details are even made available. It is a product that helps families get to the fields faster by offering great tasting, fast solutions."*

~Julie

*"The Profit from Poultry fundraising program is successful for us because the product is very good, the profit return is appropriate, our campaigns are timed for repeat customers, the item prices are very comparable to retail, the forms are colourful and the product line is not overwhelming. It's by far, our most popular fundraising effort year after year!"*

~Mark

*"I just wanted to send you a note and let you know how happy we were with the poultry fundraising. We found it went so easy, smoothly, and well organized. One always hopes a new fundraiser goes well and hopes orders come in, to say the least it went over our expectations and was very happy with the end results. We were able to make well use of our profitable money. The surprise package was also very nice of you as we picked top sellers for prizes. Thank you once again for making it easy and hope to do this again in the future."*
